DETAILED ACTION

This Office Action is in response to the amendment filed on 11/21/06.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17, 19, 21, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Hamilton et al. (U.S. Pat. No. 6,502,837 B1).

Hamilton et al. discloses a process for leveling a vehicle comprising sensing the orientation of a vehicle relative to a horizontal plane as the vehicle moves (Abstract and column 32, lines 49-51), processing data relating to the sensed orientation with a controller (CCM; column 13, lines 11-23), and adjusting the orientation of the vehicle relative to the horizontal plane with the controller (column 32, lines 59-62), based on the data, as the vehicle moves (column 33, lines 3-4), by at least one of inflating and deflating at least one air spring mounted to the vehicle (column 10, lines 31-45). The vehicle includes an electronic ride height control system (SCU), wherein the controller is in communication with the ride height control system, and wherein the controller at least one of controls and overrides the electronic height control system to perform the adjusting (column 13, lines 46-54). The sensing is performed by at least one of an electronic side to side axis leveling sensor (430) and an electronic fore to aft axis leveling sensor (428), and wherein the adjusting step the vehicle is leveled relative to the horizontal plane (column 32, lines 59-64).

Allowable Subject Matter

3. Claims 1-16, 18, 20, and 23-27 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claim 17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
